

# Let Me Live

## Song

With my chest and head held high I will cry out to the sky:  
Let me live! Let me sing! Let me live!

There's a world for me to see, I'll explore it happily;  
Let me live! Let me sing! Let me live!

*For the chance I have to grow I give thanks; I give thanks.  
For the chance I have to think and learn and grow and fly!*

With my trouble drawing near I will face it without fear;  
Let me live! Let me try! Let me live!

Though the journey may be hard and my hands may come out scarred;  
Let me live! Let me try! Let me live!

*For the chance I have to grow I give thanks; I give thanks.  
For the chance I have to think and learn and grow and fly!*

As my heart is filled with good let me use it as I should;  
Let me live! Let me dance! Let me live!

Even if I'm not the best, let me try it with the rest;  
Let me live! Let me dance! Let me live!

*For the chance I have to grow I give thanks; I give thanks.  
For the chance I have to think and learn and grow and fly!*

Grow and fly, let me live!
