

## Chant

### Song

You like blue  
And I like red

You say back  
The things I said

You help me throw  
I'll help you sing

Together we  
Do ev'rything

You like to dance  
And I play ball

Together we  
Can have it all

I like to think  
You like to talk

He likes to drive  
She likes to walk

*Look how diverse  
The human race is*

*Each one unique  
Just like our faces*

You're the engine at front  
I'm the caboose at back

Our train moves fine  
Right down the track

I do math  
And you can spell

We all have things  
That we do well

We're not the same  
And ain't that sweet

We'll still be friends  
Each time we meet

All kinds of people  
All kinds of cake

Without all kinds  
The world would break

*Look how diverse  
The human race is*

*Each one unique  
Just like our faces*

Chant at a moderate tempo accenting a strong beat on 2 and 4 by snapping, clapping, or playing percussion instruments.
